AT A GLANCE

Deutsche Beteiligungs AG (“DBAG”) has been listed since 1985 and is one of the most renowned private equity firms in Germany. As an investor and fund advisor, DBAG traditionally focuses on mid-market companies in Germany, Austria and Switzerland (the DACH region), and especially on well-positioned companies offering growth potential. DBAG’s sector focus is on manufacturers, industrial service providers and IndustryTech enterprises – businesses whose products facilitate automation, robotics and digitalisation – as well as on companies from the broadband/telecommunications, IT services, software and healthcare sectors. With its Milan office, DBAG has also maintained a presence in Italy since 2020. DBAG Group’s assets under management or advisory amount to approximately 2.6 billion euros. Having entered into a strategic partnership with ELF Capital Group in the financial year 2022/2023, DBAG has expanded its range of flexible financing solutions for mid-market companies to include private debt.

LETTER TO OUR SHAREHOLDERS

Dear shareholders,

standing still is never an option for Deutscheeteiligungs AG, and we are delighted with the positive market feedback regarding our performance. The major milestone reached in the first quarter of the new financial year 2023/2024 has undoubtedly been the completion of the majority takeover of ELF Capital Group. You will recall approving the required amendment to DBAG's corporate objective almost unanimously at the Extraordinary General Meeting held on 2 November 2023. With the ELF Capital acquisition we are adding private debt to our range of solutions, creating an even more powerful platform for the financing needs of mid-market companies. Integration of ELF Capital into Deutscheeteiligungs AG has been progressing very well indeed.

We are also receiving a lot of approval concerning our updated distribution policy: in future, we would like you to participate in financial gains in the form of stable dividends of at least 1.00 euro per each share entitled to dividends. In addition, we want to consider share repurchases on a more regular basis, as a flexible option enabling you to achieve additional participation in the Company's positive development. In view of our consistently high return on investment, we consider our dividend policy to be in line with your interests.

The market was offering attractive opportunities for new equity investments in the first quarter of the 2023/2024 financial year. We investigated 66 investment opportunities; this is a significantly higher number than the 51 we looked at in the first quarter of the previous year, and also more than the 60 opportunities examined

in the last quarter, pointing the way for further expansion of our investment portfolio.

The operating performance (net change in earnings and debt) of our portfolio companies was favourable during the quarter under review, with contribution to net gains and losses on measurement and disposal markedly exceeding the previous year's figure. In contrast, the contribution from listed peer group companies' changes in multiples was clearly negative, unlike last year when they reported a better capital markets performance. That was the main reason for the net asset value of 663.4 million euros in the first quarter of 2023/2024 being slightly lower than the 669.4 million euros reported at the end of the financial year 2022/2023, and negative net income of -5.9 million euros. The previous year's figure was 41.6 million euros. Our Fund Investment Services segment was in line with projections, generating earnings before taxes of 2.5 million euros as against 3.5 million euros in the previous year.

Whilst our business does not permit quarterly results to be extrapolated in a linear manner, our first-quarter results are within the projected range for 2023/2024, and we are looking ahead to the rest of the year with confidence.

The Board of Management
of Deutscheeteiligungs AG

REVIEW OF KEY EVENTS AND TRANSACTIONS

Reporting on significant changes in co-investments alongside DBAG funds, and in Long-Term Investments for the first quarter of the 2023/2024 financial year. Unless expressly stated, DBAG contributed no additional capital to the transactions¹ below.

- **Two sales completed (R+S, GMM Pfaudler)**
- **One disposal following insolvency (Gienanth); no value contribution realised during the current financial year since the investment's negative performance had been taken into consideration as at previous reporting dates**
- **One new management buyout (ProMik) and one new Long-Term Investment (NOKERA) completed**
- **Five (add-on) acquisitions for existing portfolio companies, of which two completed and three agreed**

As at 31 December 2023, DBAG's portfolio comprised 37 portfolio companies and one externally-managed foreign buyout fund.

INCOME FROM FUND SERVICES

- › DBAG Fund VIII: 4.9 million euros, compared to 4.8 million euros in the previous year
- › DBAG Fund VII: 4.3 million euros, compared to 4.3 million euros in the previous year
- › As expected, income from DBAG Fund VI and DBAG ECF was down year-on-year.
- › DBAG ECF IV: 0.6 million euros (new)

PERSONNEL EXPENSES

- › Up year-on-year due to an increase in the average number of DBAG employees (+15) – organic growth and additional effects related to the addition of ELF Capital

OTHER OPERATING INCOME

- › Higher income from consultancy expenses that can be passed through for transactions concluded by advised funds

OTHER OPERATING EXPENSES

- › Especially higher consultancy expenses that can be passed through for transactions concluded by advised funds – in line with other operating income

NET INCOME ATTRIBUTABLE TO OTHER SHAREHOLDERS OF INVESTMENT ENTITY SUBSIDIARIES

- › Mainly concerns imputed carried interest (please refer to the Annual Report 2022/2023, pages 58 and 65, for an explanation of carried interest)
- › The increase of the corresponding deductible was less pronounced than in the previous year, in line with lower gross gains and losses on measurement and disposal.

CURRENT PORTFOLIO INCOME

- › Mainly relates to interest payments on shareholder loans; down year-on-year, driven by lower shareholder loans

NET GAINS AND LOSSES FROM OTHER ASSETS AND LIABILITIES OF INVESTMENT ENTITY SUBSIDIARIES

- › This item mainly includes remuneration for the manager of DBAG Fund VII and DBAG Fund VIII, based on the capital invested or committed by DBAG.

Net measurement gains and losses	(9,361)	42,675
Net gains and losses on disposal	2,654	(93)
	(6,707)	42,582

FAIR VALUE OF UNLISTED INVESTMENTS

- › Net measurement gains and losses from 37 active equity investments, of which three have been partially disposed of (Cloudflight, evidia and Telio), from an investment in an externally-managed foreign private equity fund of minor significance, and from other investments (investments made to settle representations and warranties on previous disposals which are no longer expected to deliver any appreciable value contributions)
- › Valuation method: 32 equity investments measured using the multiples method, five at acquisition cost
- › Positive operating performance (net change in earnings and debt)
 - Change in earnings: largely driven by considering the budgets of the portfolio companies for 2024
 - Change in debt: reductions seen at many portfolio companies offset by debt financing of add-on acquisitions (including akquinet, AOE and MTWH) and by planned growth financing
- › Change in multiples: overall negative value contribution due to significantly higher share prices as at the reporting date compared to share price levels as at 30 September 2023; these are more than offset by the negative effect from higher earnings expectations on the multiples (which typically occurs in the first reporting quarter due to the changeover to the subsequent financial year).

NET GAINS AND LOSSES ON DISPOSAL

- › Mainly attributable to one fully sold portfolio company from the industrial sectors

	(6,707)	42,582

POSITIVE MOVEMENTS

- › 14 companies (previous year: 19)

NEGATIVE MOVEMENTS

- › 15 companies and the remaining externally-managed foreign buyout fund (previous year: 13 and the remaining externally-managed foreign buyout fund)

NO CHANGE

- › Five investments (previous year: six), measured at their original transaction price due to a holding period of less than one year; these investments account for ten per cent of the portfolio value.

NET MEASUREMENT GAINS AND LOSSES

- › Net measurement gains and losses reflect the adjusted valuation multiples of peer group companies and the adjustment of portfolio company budgets from 2023 to 2024 (a typical phenomenon for the first quarter of a new financial year), resulting in a negative contribution from multiples. In addition, positive impact from operating performance – the net change in earnings and debt – (please refer to source analysis 1).

PORTFOLIO VALUE DEVELOPMENT

(€mn)

PORTFOLIO VALUE AS AT 31 DECEMBER 2023

- › Our 37 equity investments were valued at 626.0 million euros (30 September 2023: 631.9 million euros).
- › “Other” investments comprise the investment in an externally managed foreign buyout fund as well as entities through which (predominantly) representations and warranties from previous disposals are settled, with a value of 20.0 million euros (30 September 2023: 6.1 million euros).
- › The portfolio value is equivalent to 1.0 times the original acquisition cost (30 September 2023: 1.1 times). Business models in industry and industrial technology sectors are valued at 1.1 times acquisition cost (30 September 2023: 1.2 times), whilst business models in growth sectors are valued at 1.2 times acquisition cost (30 September 2023: 1.3 times).
- › The share of portfolio companies with leverage of 3.0 or more was reduced to 69 per cent (30 September 2023: 74 per cent), also due to the portfolio composition. Portfolio value by leverage does not include any partial disposals or residual items.

CHANGE IN PORTFOLIO VALUE

- › Additions: mainly NOKERA and ProMik, plus capital calls from existing portfolio companies
- › Disposals: mainly GMM Pfaudler and R+S
- › Change in value: driven by negative value contributions from changes in multiples (please refer to source analysis 1)
